

README.pdf

Moritz Schularick and Alan M. Taylor, “Credit Booms Gone Bust: Monetary Policy, Leverage Cycles, and Financial Crises, 1870–2008” *American Economic Review*. Forthcoming.

The zip file contains the program/data/output that show how to replicate the results in the paper

- To run/replicate you need STATA. (We used STATA 10.1)
- The underlying data file is “panel17.dta.”
- The do file to run is “FinalResults.do”
