CSEP Summary

- Strategy:
bottom-up, based on personal contact & long friendship of faculty members
- Components:
 - Faculty exchange every 1-2 years
 - Double Master Program (DMP), both institutions awarding
Master of Science in Computer Science
- Inspiration:
 - International experience for leadership candidates
 - „Proof of concept“ for own Master Program established in 1999
 - Excellent achievement, student grades 80% A
- Accreditation:
 - German program at HSKA is accredited from ASIIN since 2003, praise for CSEP
 - US program not accredited so far

P.A.Henning © 2006

History CSEP

- 1988 – 1998
 - Various informal contacts, visiting professor from HSKA at EMU
 - 1999 Visit of delegation to EMU, negotiation of Double Master Program (DMP)
- 2000
 - President of EMU visiting HSKA, signing of contract
 - Visiting Professors from HSKA at EMU and from EMU at HSKA
 - First student from HSKA in Double Master Program
- 2002
 - Visiting Professor from EMU at HSKA
 - 3 Students from EMU in summer program at HSKA
- 2005
 - Visiting Professor from HSKA at EMU
- 2006
 - Visiting Professor from EMU at HSKA
- Summary: 16 Students from HSKA at EMU, 4 Students from EMU at HSKA

P.A.Henning © 2006

Boundary conditions CSEP-DMP

- HSKA
 - 3 semester program, each w. 30 ECTS credits, amounting to 900 hours/semester of student workload
 - Admission policy set by faculty, not rigorously enforced
- EMU
 - 3 semester program, total of 33 credit hours
 - Admission policy set by faculty & school & college, rigorously enforced
- Translation 1 credit hour = 2-4 ECTS credits
- Lectures at partner institution are credited to 50%, thesis work more flexibly

P.A.Henning © 2006

Curriculum CSEP-DMP

<p>HSKA</p> <ul style="list-style-type: none"> • 3 semester program, each w. 30 ECTS credits • Participants in DMP <ul style="list-style-type: none"> – 2 semesters at HSKA, collecting 60 ECTS* – 2 terms at EMU, collecting 15 credit hours* <ul style="list-style-type: none"> • Master Thesis 	<table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Calculation at HSKA</th><th style="text-align: center;">Calculation at EMU</th></tr> </thead> <tbody> <tr> <td style="text-align: center;">60 ECTS</td><td style="text-align: center;">15 c.h.</td></tr> <tr> <td style="text-align: center;">10 ECTS</td><td style="text-align: center;">15 c.h.</td></tr> <tr> <td style="text-align: center;">20 ECTS</td><td style="text-align: center;">3 c.h.</td></tr> <tr> <td style="text-align: center; border-top: 1px solid blue; border-bottom: 1px solid blue;">90 ECTS</td><td style="text-align: center; border-top: 1px solid red; border-bottom: 1px solid red;">33 c.h.</td></tr> <tr> <td style="text-align: center;">36 ECTS</td><td style="text-align: center;">18 c.h.</td></tr> <tr> <td style="text-align: center;">24 ECTS</td><td style="text-align: center;">6 c.h.</td></tr> <tr> <td style="text-align: center;">30 ECTS</td><td style="text-align: center;">9 c.h.</td></tr> <tr> <td style="text-align: center; border-top: 1px solid blue; border-bottom: 1px solid blue;">90 ECTS</td><td style="text-align: center; border-top: 1px solid red; border-bottom: 1px solid red;">33 c.h.</td></tr> </tbody> </table>	Calculation at HSKA	Calculation at EMU	60 ECTS	15 c.h.	10 ECTS	15 c.h.	20 ECTS	3 c.h.	90 ECTS	33 c.h.	36 ECTS	18 c.h.	24 ECTS	6 c.h.	30 ECTS	9 c.h.	90 ECTS	33 c.h.
Calculation at HSKA	Calculation at EMU																		
60 ECTS	15 c.h.																		
10 ECTS	15 c.h.

* ... from catalog

Language issues

- US program requires TOEFL/TWE
 - High cost of testing, rigid requirement set by school, college & faculty
 - Additional barrier for students with migration background
 - Clear experience:
 - Good TOEFL results may still lead to a badly written thesis (many examples known at EMU)
 - Bad TOEFL results => enforced enrollment in English language courses at EMU => may still result in badly written thesis
 - To summarize: No correlation between TOEFL/TWE and ability to pass computer science program – **IRRELEVANT** for field of study.
- German program requires German language certificate
 - Requirement set by faculty, may be waived easily
 - German program is partly taught in English language since 2005
 - Very high barrier for US students

P.A.Henning © 2006

Financial issues

- US program
 - Tuition & fees ca. 8.000 \$ for two terms (In-state)
 - „Financial statement“ required to show 19.000 \$ of liquid money – ridiculous from European viewpoint
 - Out of 14 students in DMP
 - 9 have been receiving a DAAD scholarship (roughly 15.000 \$)
 - 3 have been receiving a Baden-Wuerttemberg scholarship (6.000 \$)
 - 2 have been receiving a scholarship for gifted students by the German Friedrich Naumann Foundation (<http://www.fnst.org>)
- German program
 - No cost so far, will start with 500 €/semester in 2007
 - Out of 4 students
 - 3 did not receive any scholarship (short summer program)
 - 1 will receive a Baden-Wuerttemberg scholarship (4.000 €)
- Recent development:
 - Assembling „credit“ for tuition fees at EMU by US students going into other HSKA programs

P.A.Henning © 2006

Mobility issues

- Faculty mobility quite low on both sides
 - 1 out of 10 has international **teaching** experience
 - May be changing due to new culture of sabbaticals at German Universities of Applied Sciences
 - Higher demand for short programs, 4-6 weeks
- Faculty mobility **VERY MUCH** appreciated by students
- Student mobility quite high in Germany
 - 20 % of Master Program students are seeking international experience
 - Declining due to excellent job perspectives in computer science
- Student mobility extremely low in US
 - Almost no student in CS at EMU is seeking international experience

P.A.Henning © 2006

Job issues

- Interest in „pure“ computer sciences in decline (-60% in US, -30% in Europe)
- Interest in „Computer Science PLUS something“ is rising tremendously
 - HSKA program is called „Computer Science & Multimedia“, offers unique specialization beyond computer science
- Excellent job market for computer science graduates in Germany, **not a single alumnus** is known to be unemployed
- Improved salary situation due to „Bologna process“
 - No formal distinction between traditional universities' degrees and those from universities of applied sciences
 - No distinction in salaries
 - Additional salary potential due to international experience 15 %
- 20% of HSKA Computer Science Masters are currently seeking a doctoral degree

P.A.Henning © 2006

Internship issues

- 80% of students at HSKA write their Master Thesis as interns
 - Integrated requirement for EMU students coming to HSKA in DMP
 - **NO PROBLEM** in finding an internship inside Germany where only English language is needed
- Former large interest in foreign internships in the US has vanished:
 - Difficult procedure for host companies
 - Difficult to get visa for internships in the US
- Upcoming countries
 - Eastern Europe
 - Asia

P.A.Henning © 2006

Marketing issues

- Every Computer Science Master at HSKA knows about the program – part of introduction process
 - Interest declining due to rise in tuition & fees !
 - Interest declining due to job market situation.
 - Interest coupled to the availability of scholarships
- Advertisement at EMU difficult, needs personal contact of faculty members with international experience to students

P.A.Henning © 2006

Problems I

- Long discussion with admissions office at EMU have led to a well established procedure – no problems left over ☺
- Admissions office needed to develop a certain trust in coordinating officer on German side
- Rigid enforcement of TOEFL/TWE requirements inadequate
- Recent ***new*** problem:
 - EMU requires **worldwide** coverage of health insurance
 - German students in general have German coverage via their parents
 - Difficult to get statement from insurance company,
 - German students going to EMU generally buy a health care plan only valid **outside Germany**
- German administration under control by faculty – uneasiness about non-standard procedures can be quenched

P.A.Henning © 2006

Problems II

Biggest problem now: **Motivation**

- Other countries are a good substitute for US in gaining international experience
 - At much lower cost
 - With less bureaucratic effortE.g. Canada (U of New Brunswick, others coming up), New Zealand, Hungary
- US procedures do not **REALLY** convey the feeling that foreign visitors are welcome
 - SEVIS fee and procedure
 - Visa application procedure

P.A.Henning © 2006

Other programs at Master Level

- International Management
 - Mandatory foreign semester
 - Dual Degree Program with Institut Supérieure du Commerce, Paris
- Geomatics
 - Dalian University, China
 - Szeged University, Hungary
- Sensor Systems Technology
 - KTH Stockholm, Sweden
 - McGill University, Canada
